CONCEPT BATHROOM SOLUTION

Faucet | Accessories | Ceramics | Buthtub

 **EcoTap Technology:**
Unique flow adjustment technology ensures comfortable bathing experience and energy saving.

 **Water Saving Technology:**
The selection of Swiss Neoperl quality water-saving aerator enables water clean and soft, and effectively save up to 30% water.

 **Rotatory Technology:**
Rotatable spout can be adjusted according to the height of the users as well as the container.

 **Color Focus Technology:**
The technology of international advanced PVD vacuum coating and spraying give our products beautiful colours that are not only abrasion resistant, anti-corrosion but also anti-oxidative.

 **Air Mix Technology:**
Over 2L air is absorbed every minute to mix with water fully so as to offer you the soft and rhythmic bathing experience.

 **Concealed Coin-started Aerator:**
It only takes one coin to open the aerator, which makes the aerator easier to install and maintain.

 **Low Lead Technology:**
Bravat products meet the standards of NSF and American Bill AB1953, we select high-quality low-lead brass or the brass treated by the high technology of lead-washing minimums the lead content of running water when accessing the faucet, thus effectively prevents the secondary.

 **Mirror-sided Plating Technology:**
The mirror-sided plating technology that we are proud of makes our products even more extraordinary.

 **Touch Control Technology:**
Fashionable touch control technology matched with gorgeous guiding light leads the personal wonderful trend.

 **Siphonic Flushing Technology:**
The enlarged flushing valve ensures a powerful water pressure, maximum siphon functions, and a strong sewage disposal.

 **Wash down Flushing Technology:**
The innovative super-large flushing coverage enables powerful water-flow flush and one-stop sewage disposal.

 **Soft-decent Technology:**
The seat and cover soft-closing design realizes a quiet and slow decent effect.
